The Board of Directors' Meeting of Bangkok Bank Public Company Limited (the Bank) No. 1/2020 on 23 January 2020 resolved to propose to a meeting of shareholders to approve the Bank's entering into the transaction as detailed below:

1. Date of the Transaction

On 12 December 2019, the Bank entered into a conditional share purchase agreement (the CSPA) with Standard Chartered Bank (Standard Chartered) and PT Astra International Tbk (Astra) to purchase from Standard Chartered and Astra 24,991,429,332 Series B shares (Sale Shares) in total in PT Bank Permata Tbk (Permata), representing 89.12% of the total issued and sold shares in Permata (the Transaction). The Transaction was approved by the Board of Directors of the Bank in the Board of Directors' Meeting No. 12/2019 held on 11 December 2019.

2. The Parties Involved

Acquirer: The Bank

Sellers: Standard Chartered and Astra

Relationship: Both sellers are not related persons of the Bank according to the definition of the Notification of the Capital Market Supervisory Board No. TorJor. 21/2551 Re: Rules on Connected Transactions and the Notification of the Board of Governors of the Stock Exchange of Thailand Re: Disclosure of Information and Other Acts of Listed Companies Concerning the Connected Transactions B.E. 2546 including any subsequent amendments.

Purchased Shares: Total of 24,991,429,332 Series B shares in Permata, representing 89.12% of the total issued and sold shares in Permata. Each of Standard Chartered and Astra will sell 12,495,714,666 Series B shares, representing 44.56% of the total issued and sold shares in Permata, to the Bank.

3. General Characteristics of the Transaction

General Features

The Bank will purchase 24,991,429,332 Series B shares in total in Permata from Standard Chartered and Astra, representing 89.12% of the total issued and sold shares in Permata on the basis of an agreed valuation of a 1.77 times of Permata's book value (subject to certain adjustments). This implies, on the basis of Permata's book value as at 30 September 2019, an indicative purchase price of IDR 1,498 per share and an indicative transaction value of IDR

37,430,974 million (approximately US\$ 2,674 million or THB 81,019 million¹). The price payable by the Bank for the 89.12% stake in Permata will be finalised on the basis of a 1.77 times of Permata's book value, as set out in the last financial statements published by Permata prior to the closing of the Transaction (subject to certain adjustments).

Each of Standard Chartered and Astra will sell 12,495,714,666 Series B shares, representing 44.56% of the total issued and sold shares in Permata, to the Bank. Subject to the relevant approvals being obtained and the satisfaction of the conditions precedent under the CSPA, the Bank expects the completion of the Transaction to take place within the third quarter of 2020. Following completion of the Transaction, the Bank anticipates conducting a mandatory tender offer for the remaining approximately 10.88% stake in Permata at the price determined in accordance with the relevant rules of IDX which shall not be lower than the price per share paid to Standard Chartered and Astra.

In this regard, the Bank will seek its Board of Directors' resolution to determine the final purchase price for the Transaction and such price is expected to be announced on the SET website. The purchase price will be settled by cash. The final purchase price for the Transaction will be based on the last financial statements published by Permata prior to the closing of the Transaction, which will take place after all conditions precedent have been fulfilled. Based on the financial statements as at 30 September 2019, the indicative purchase price for Permata's shares will be IDR 1,498 per share and the indicative transaction value will be IDR 37,430,974 million (approximately US\$ 2,674 million or THB 81,019 million). Although the Bank has agreed to purchase 89.12% of the total issued and sold shares of Permata from Astra and Standard Chartered, there is a possibility that the Bank may acquire up to 100% of the total issued and sold shares of Permata through a mandatory tender offer as required by the relevant Indonesian regulations. On that basis, if we assume that the Bank will acquire 100% of the total issued and sold shares of Permata, the indicative transaction value could be IDR 42,001,080 million (approximately US\$ 3,000 million or THB 90,911 million). Therefore, the indicative transaction value based on the financial statements as at 30 September 2019 may range between IDR 37,430,974 million and IDR 42,001,080 million.

In addition, the final purchase price may vary from the above price range, subject to certain adjustments pursuant to the terms of the CSPA (please refer to Section 6 below).

As a result of the Transaction, the Bank will also acquire PT Sahabat Finansial Keluarga which is Permata's subsidiary with 99.998% shares held by Permata.

Size of the Transaction

The Bank has calculated the Transaction size on the basis of the four approaches of calculation required by the regulations on major transactions, based on the financial statements of the Bank and Permata as of 30 September 2019 which can be summarised as follows:

¹ For the calculation of the transaction value, the IDR amount has been converted into THB at an exchange rate of THB1:IDR462 and USD at an exchange rate of USD1:IDR13,999 as of 11 December 2019

Unit: THB million ^{1/}	Published consolidated financial statement of Permata as of 30 September 2019	Reviewed consolidated financial statement of the Bank as of 30 September 2019
Total assets	335,669.99	3,228,091.79
Intangible assets	1,090.48	1,792.38
Total liabilities	284,307.58	2,797,653.75
Minority interests	0.02	259.76
Net tangible assets (NTA) ^{2/}	50,271.91	428,385.90
Total number of issued and sold shares (shares)	28,042,739,205	1,908,842,894
Net income to Owners ^{3/}	3,246.14	35,914.89

Note: 1/ For the calculation of the transaction value, the IDR amount has been converted into THB at an exchange rate of THB1:IDR462 and USD at an exchange rate of USD1:IDR13,999 as of 11 December 2019

2/ NTA (Net Tangible Assets) is equal to total assets less intangible assets, total liabilities and non-controlling interests

3/ Profits during the last 12 months (only a portion attributed to the Company's Shareholder).

(a) Calculation on the basis of NTA

$$\begin{aligned} \text{Transaction size} &= \frac{\text{NTA of Permata} \times \text{Percentage of assets acquired} \times 100}{\text{NTA of the Bank}} \\ &= \frac{50,271.91 \times 100\% \times 100}{428,385.90} \\ &= 11.74\% \end{aligned}$$

(b) Calculation on the basis of net profit

$$\begin{aligned} \text{Transaction size} &= \frac{\text{Net profit of Permata} \times \text{Percentage of assets acquired} \times 100}{\text{Net profit of the Bank}} \\ &= \frac{3,246.14 \times 100\% \times 100}{35,914.89} \\ &= 9.04\% \end{aligned}$$

(c) Calculation on the basis of total consideration value

$$\begin{aligned} \text{Transaction size} &= \frac{\text{Total consideration value paid} \times 100}{\text{Total assets of the Bank}} \\ &= \frac{90,911.48 \times 100}{3,228,091.79} \\ &= 2.82\% \end{aligned}$$

(d) Calculation on the basis of payment-in-kind

This approach does not apply because the Bank will make payment in cash for Permata's shares.

No.	Calculation approach	Transaction size
1.	Calculation on the basis of NTA	11.74%
2.	Calculation on the basis of net profit	9.04%
3.	Calculation on the basis of total consideration value	2.82%
4.	Calculation on the basis of payment-in-kind	Not applicable because the Bank will make payment in cash.

Based on the requirements under the Notification of the Capital Market Supervisory Board No. TorJor. 20/2551 Re: Rules on Entering into Material Transactions Deemed as Acquisition or Disposal of Assets dated 31 August 2008 (as amended) and the Notification of the Board of Governors of the Stock Exchange of Thailand Re: Disclosure of Information and Other Acts of Listed Companies Concerning the Acquisition and Disposition of Assets B.E. 2547 (2004) dated 29 October 2004 (as amended) (collectively, the Acquisition or Disposition Rule), the size of the Transaction is 11.74% calculated based on the assumption that the Bank will acquire 100% stake in Permata (both under the CSPA and through the mandatory tender offer to be conducted thereafter), using the value of net tangible asset criterion, which gives the highest value among all criteria prescribed by the Acquisition or Disposition Rule. In this regard, the size of the Transaction is lower than 15%.

According to Section 43 of the Financial Institutions Business Act B.E. 2551 (2008) (as amended), the Bank must also submit an application to the Bank of Thailand (the BOT) to obtain an approval of the Transaction. In this regard, the Bank is required to obtain shareholders' approval with a vote of not less than three-fourths of the total number of votes of the shareholders attending the shareholders' meeting and entitled to vote prior to the submission of an application to the BOT.
